20% Brooklawn Kentucky Bluegrass

Penmulch

Provides starter fertilizer and conserves moisture to increase grass seed establishment

Snapshot®

Selective pre-emergence herbicide for control of selected annual grasses and broadleaf weeds in landscape ornamentals, nursery stock, ground covers, tree plantings and other selected areas.

Treflan®

Treflan HFP herbicide controls annual grasses and certain broadleaf weeds, such as pigweed in landscape beds.

Arena®

Longest residual insecticide, preventative/ curative grub control. Broad spectrum control of other soil and surface feeding insects.

Borer/Bagworm Spray

Controls Army worms, sod webworms in lawn. Controls bagworms on fruiting/ornamental trees.

Deer / Rabbit Repellent

Repel deer / rabbits from landscape plants

Dormant Oil

Insecticide. Spread uniformly on the bark of trees and shrubs to coat non-mobile, dormant insects on the tree. It is best to spray before buds begin to swell.

Dylox®

Grub control while actively feeding on the turf.

Mach 2®

MACH 2 specialty insecticide offers maximum power for season long control of white grub larvae, including Japanese beetles, northern and southern masked chafers and May/June beetles, as well as lepidopterous larvae such as cutworms, sod webworms and armyworms. Best applied as a preventive treatment.

Merit® 0.5G / Mallat

Insecticide for systemic insect control in turfgrass and landscape ornamentals.

Talstar®

Wide range control of insects on both lawn & ornamentals.

Captan 50

Wettable power spray fungicide for broad range disease control

Consyst®

Contact fungicide for prevention and control of Anthracnose, Dollar Spot, Brown Patch, Melting-Out, Leaf Spot and many other selected common turf fungal diseases.

Catt Plex™

Cattail control in ponds

Crystal Blue™ Dye

Especially formulated to aesthetically enhance golf course water hazards and manmade ornamental lakes and ponds.

Crystal Blue™ Pond Cleaner

Cleans out, digest muck and other organic materials

Crystal Plex™ Algae & Weed

Offers residual control for weeds and algae. For use in lakes, recreational areas, reservoirs, hatcheries, & farm water supplies.

GlyphoMate™ 41

New GlyphoMate™ 41 is Gordon's unique formulation containing 41% glyphosate and a surfactant. GlyphoMate 41 is labeled for most aquatic sites *plus* landscaping plantings, turf renovation, nurseries, roadsides, farmsteads, orchard floors,

Sedgehammer® / Halosulfuron

Post control of nutsedge.

Speed Zone®

Post-emergent broadleaf herbicide for turf. Rapid visual results. Great for cool weather control ester formulation

Spreader Sticker

Designed to quickly wet and spread a more uniform spray deposit over leaf and stem surfaces.

Surge®

Broadleaf herbicide with a wide range of site uses. For hard to control weeds: spurge, Knotweed, Oxalis, Clover, Dandelion & Yellow Nutsedge. 4-way with Sulfentrazone. You will see injury in 24-48 hrs and control in 14 days.

Triamine™ Jet Spray

Pre-mixed in easy to use spray can with foam marker. Broad spectrum broadleaf weed control in turf.

Trimec® 992

A broadleaf herbicide with a wide range of use sites including sports turf, home lawns, institutional sites, sod farms and industrial uses.

Q4®

Turf herbicide for control of grassy and broadleaf weeds with nutsedge suppression. Fast visual response and an enhanced spectrum of weed control.

Quinstar

Herbicide may be applied post emergence to turf for the control of many broadleaf and grass weeds, like crabgrass.

Pramitol®

Pramitol is a bare ground herbicide. Pramitol can be used around buildings, storage areas, fences, recreational areas, fuel tanks, roadways, guardrails, airports, highway medians, pipelines, railroads, lumberyards, right-of-ways, and other similar areas.

Roundup® Pro/ Killzall

The complete broad spectrum post emergence professional non-selective herbicide for industrial, turf, and ornamental weed control.

Round Up® Quick Pro™

Granular Round Up with diquat for quick non-selective control. Complete broad spectrum post emergence herbicide for industrial, turf and ornamental weed control.

Scythe®

Scythe is used as an organic, contact weed and grass killer which is composed of pelargonic acid and related fatty acids. This material is a non-selective (kills broadleaf and grasses) contact spray concentrate. Results are usually visible within minutes after spray application.

Espoma Organic Lawn Food

Long lasting, slow release nitrogen for extended greening. Environmentally friendly & safe to use.

Ferromec

For fast green up of turf sites or ornamentals

Holly Tone

All natural plant food for acid loving plants

Plant Tone

All natural plant food for flowers, vegetables, trees & shrubs

All products at 4# / 1000ft²**12,500 ft² coverage per 50# bag**
